

# HAWAIIAN PLANTERS' RECORD

---

Vol. LIV

1951-1954

---

A publication devoted to the sugar interests of Hawaii and issued by the Experiment Station for  
circulation among plantations of the Hawaiian Sugar Planters' Association.

---

L. D. Bayer, Editor

Lydia C. Nickerson, Associate Editor

# INDEX TO VOLUME LIV

- Alexander, Henry—Emergency Overhead Irrigation for Unirrigated Cane. . . . . 285
- Available Phosphorus in Hawaiian Soil Profiles (*A. S. Ayres*) . . . . . 81
- Ayres, A. S.—Available Phosphorus in Hawaiian Soil Profiles. . . . . 81
- Background and Results of Recent Irrigation Timing Tests in American Factors Plantations (*G. Y. Ewart*) . . . . . 257
- Baver, L. D.—  
Preface to Irrigation Seminar . . . . . 163  
Meteorological Approach to Irrigation Control. . . . . 291
- Borden, R. J.—Getting More Information for Less Money Through Factorial Design in Experiments. . . . . 77
- Bouyoucos blocks. . . . . 172, 273
- Cane—  
breeding. . . . . 101  
choice of parent canes. . . . . 147  
crossing techniques. . . . . 106, 108, 109, 112, 132, 134, 135, 140, 141, 151, 152, 156, 158  
importation of breeding material. . . . . 103, 146  
philosophy on breeding program 139–162  
rotting caused by pineapple disease. . . . . 23  
seedling culture. . . . . 116, 117, 120, 141, 142, 159–161  
seedling evaluation. . . . . 124, 128, 133, 142  
tassel control. . . . . 133  
water requirements of. . . . . 169, 170, 172, 211
- Ceratostomella paradoxa* (de Seynes) Dade—  
principal cause of rotting of sugar cane. . . . . 23
- Clements, H. F.—Irrigation Control with Tensiometers and Irrimeters. . . . . 271
- Continuous Long Line System of Irrigation (*R. D. Gerner*) . . . . . 241
- Controlling Pineapple Disease of Sugar Cane (*C. A. Wismer*) . . . . . 23
- Cornelson, A. H.—Some Moisture Tension Characteristics of Hawaiian Soils. . . . . 205
- Cox, D. C.—Water Development for Hawaiian Sugar Cane Irrigation. . . . . 175
- Cox, J. B.—Economics of Water Development. . . . . 199
- Crossing Techniques—  
area cross. . . . . 112, 141  
bi-parental. . . . . 141, 158  
melting pot. . . . . 109, 141, 156  
selfing. . . . . 152  
sulphurous acid. . . . . 106, 151  
sulphurous acid with phosphoric acid. . . . . 108
- Ditches, early . . . . . 167
- Doty, R. E.—Warfarin (Compound 42) . . . . . 1
- Economics of Water Development (*J. B. Cox*) . . . . . 199
- Emergency Overhead Irrigation for Unirrigated Cane (*Alexander & Mellen*) . . . . . 285
- Erosion as a Menace to the Sugar Industry of Hawaii (*R. P. Humbert*) . . . . . 55
- Erosion—  
control. . . . . 61  
knolls. . . . . 58  
loss of organic matter. . . . . 62  
raindrop damage. . . . . 56  
splash. . . . . 55
- Evapotranspiration. . . . . 183, 291–298  
correlation with solar energy. . . . . 293
- Evolution of a Philosophy on Sugar Cane Breeding in Hawaii (*J. N. Warner*) . . . . . 139
- Ewart, G. Yuan—Background and Results of Recent Irrigation Timing Tests in American Factors Plantations. . . . . 257
- Factorial Design in Experiments. . . . . 77
- Filtration Rates and Impurities in Raw Sugar Crystals (*H. P. Kortschak*) . . . . . 65
- Filtration rates—  
Elliott test. . . . . 66  
slow rate, causes of. . . . . 65  
suspended solids in molasses, effects of. . . . . 69
- Flume gates. . . . . 251
- Flumes, materials for 169, 173, 228, 233, 250
- Flume outlets: T-shape, U-shape 230, 251, 253
- Flume scoops: ski-jump, rattrap, in concrete flumes. . . . . 223, 253
- Flumes—Y-sections. . . . . 235

## TABLE OF CONTENTS

	Page
WARFARIN (COMPOUND 42) A PROMISING NEW RODENTICIDE FOR CANE FIELDS . . . . .	<i>R. E. Doty</i> 1
CONTROLLING PINEAPPLE DISEASE OF SUGAR CANE . . .	<i>C. A. Wismer</i> 23
EROSION AS A MENACE TO THE SUGAR INDUSTRY OF HAWAII . . . . .	<i>R. P. Humbert</i> 55
FILTRATION RATES AND IMPURITIES IN RAW SUGAR CRYSTALS . . . . .	<i>Hugo P. Kortschak</i> 65
GETTING MORE INFORMATION FOR LESS MONEY THROUGH FACTORIAL DESIGN IN EXPERIMENTS . . . . .	<i>Ralph J. Borden</i> 77
AVAILABLE PHOSPHORUS IN HAWAIIAN SOIL PROFILES . . . . .	<i>A. S. Ayres and H. H. Hagihara</i> 81
SUGAR CANE BREEDING IN HAWAII—PART II— 1921-1952 . . . . .	<i>A. J. Mangelsdorf</i> 101
THE EVOLUTION OF A PHILOSOPHY ON SUGAR CANE BREEDING IN HAWAII . . . . .	<i>John N. Warner</i> 139
PREFACE TO THE IRRIGATION SEMINAR . . . . .	<i>L. D. Baver</i> 163
HISTORY OF IRRIGATION . . . . .	<i>H. A. Wadsworth</i> 165
WATER DEVELOPMENT FOR HAWAIIAN SUGAR CANE IRRIGATION . . . . .	<i>Doak C. Cox</i> 175
ECONOMICS OF WATER DEVELOPMENT . . . . .	<i>Joel Cox</i> 199
SOME MOISTURE TENSION CHARACTERISTICS OF HAWAIIAN SOILS . . . . .	<i>A. H. Cornelison</i> 205
WATER DISTRIBUTION STUDIES IN THE HAWAIIAN SUGAR INDUSTRY . . . . .	<i>Roger P. Humbert</i> 211

## TABLE OF CONTENTS Continued

	Page
THE LEVEL DITCH SYSTEM OF IRRIGATION AT OAHU SUGAR COMPANY . . . . .	<i>Hans W. Hansen</i> 227
THE HERRINGBONE SYSTEM OF IRRIGATION . . . .	<i>Walter P. Naquin, Jr.</i> 233
CONTINUOUS LONG LINE SYSTEM OF IRRIGATION . . . .	<i>R. D. Gerner</i> 241
A METHOD OF FIELD LAYOUT . . . . .	<i>Warren Gibson</i> 245
RECENT DEVELOPMENTS IN IRRIGATION FLUME . . . . .	<i>R. L. Wold</i> 249
BACKGROUND AND RESULTS OF RECENT IRRIGATION TIMING TESTS IN AMERICAN FACTORS PLANTATIONS . . . . .	<i>G. Yuan Ewart</i> 257
IRRIGATION CONTROL WITH TENSIO METERS AND IRROMETERS . . . . .	<i>A. D. Waterhouse and H. F. Clements</i> 271
EMERGENCY OVERHEAD IRRIGATION FOR UNIRRIGATED CANE . . . . .	<i>Henry Alexander and John Mellen</i> 285
THE METEOROLOGICAL APPROACH TO IRRIGATION CONTROL . .	<i>L. D. Baver</i> 291
